Education

Ain Shams University

Bachelor of Engineering, Computer and Artificial Intelligence (CAIE)

2023 – 2027

Cairo, Egypt

Certifications

Cisco Certified Network Associate (CCNA) — Course Completion

Cisco Networking Academy

2025

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Database Management
- Advanced Database
- Artificial Intelligence
- Machine Learning
- Web Development
- Computer Networking
- Embedded Systems
- Computer Architecture
- Object-Oriented Programming

Experience

Summer Intern — Technology Department

Orange Egypt

Sept 2025 (4 weeks)

Cairo, Egypt

- Hands-on experience in 3G, 4G, 5G network architecture with RAN design.
- Worked on microwave backhaul and RF planning (coverage, capacity, interference).
- Visited live network sites and backhaul configurations.
- Gained insights into telecom network operations and evolution.

Projects

Multiplayer Ping Pong Game | Python, UDP

Fall 2025

- Real-time multiplayer Ping Pong using UDP with Game State Protocol v1.0; snapshot sequencing, interpolation, latency/jitter measurement, tested with 5% packet loss.

Activities Tracker | MongoDB, Node.js, Express

Fall 2025

- Database schema for clients, employees, agents, supervisors, cases, actions; references used for 1:N relations; CRUD operations with hierarchical agent-supervisor workflow; optimized queries for frequent case/action viewing.

Reddit Clone | MERN Stack

Fall 2025

- Minimal Reddit clone with authentication, profiles, communities; post creation, commenting, upvote/downvote, search; AI post summarization; frontend closely matches Reddit UI.

Food Ordering System | C#, WinForms, ADO.NET, SQL

Feb 2025

- Desktop app with CRUD operations and order management; WinForms GUI integrated with SQL backend.

2048 Game | C++

Nov 2023

- Console 2048 game with text-based UI and efficient tile merging logic.

FOS Kernel Memory Management | C, OS

Mar – May 2025

- Kernel heap memory management with user-level malloc/free; handled page faults, page replacement, memory cleanup; integrated with FOS kernel.

E-Commerce GUI | Java, Eclipse, JavaFX

Oct 2023

- JavaFX shopping app with product catalog and cart GUI; file-based data storage and OOP principles.

Technical Skills

Languages: Python, Java, C, C++, HTML/CSS, JavaScript, SQL **Tools:** VS Code, Eclipse, Visual Studio, SQL Server Management Studio, IntelliJ IDEA, Postman, MongoDB
