

Job Application Preparation Sheet

A written task to apply CV tailoring and interview preparation skills.

Session	Session 5: CV Writing and Interviewing Skills	Assignment Type	Individual Written Task
Assignment Title	Job Application Preparation Sheet	Total Marks	20
Submission Format	Written document only - no audio or video	Suggested Length	1-2 pages
Student Name	Ali Hatem Tahssin	Student / User ID	206826

Assignment Brief

One Practical Assignment

Choose one entry-level job or internship that matches your interests. Prepare one written application sheet that shows how you would tailor your CV and prepare for the interview. You do not need to submit a recorded interview.

- Extract five keywords or requirements from the job description.
- Edit your CV based on the information in the session and to be ATS-friendly.
- Prepare written answers for two interview questions: "Tell me about yourself" and "Why should we choose you?"

Required Written Submission

Final Output

- Five job keywords or requirements.
- Edit your CV - ATS-friendly.
- Three improved CV bullet points.
- Two written interview answers: 80-120 words each.

Evaluation Rubric - 20 Marks

Criteria	Marks	What the trainer will check
Job keyword selection	5	Keywords are relevant and connected to the target role.
CV writing quality	5	Submit your CV, and bullets are clear, tailored, achievement-based, and ATS-friendly.
Interview answers	5	Answers are structured, specific, confident, and relevant to the role.
Formatting and language	5	Submission is clean, professional, and easy for the trainer to review.

1. Target Job

Job Title: Backend Developer Intern

I want to apply for a Backend Developer Intern position. The role focuses on building APIs, working with databases, fixing problems, and writing clean code.

2. Five Job Keywords or Requirements

1. Python
2. REST API
3. SQL
4. FastAPI
5. Git

3. ATS Friendly CV Changes

1. Use clear sections such as Education, Skills, Projects, and Experience.
2. Add the job keywords in the Skills and Projects sections.
3. Use simple text without images, icons, or tables.
4. Use short bullet points instead of long paragraphs.
5. Put the most important skills related to the job first.
6. Save the CV as a PDF.
7. Keep the CV to one or two pages.

Technical Skills: Python, FastAPI, REST API, SQL, PostgreSQL, Git, JavaScript, Node.js, Docker

4. Three Improved CV Bullet Points

Weak: Worked on a backend project.

Improved: Built REST APIs using Python and FastAPI.

Weak: Used a database in my project.

Improved: Connected a PostgreSQL database to store and manage application data.

Weak: I worked with other developers.

Improved: I worked with a team to develop and test backend features.

5. Tell Me About Yourself

I am a final year student interested in backend development. I have worked with Python, FastAPI, REST APIs, databases, and Git. I enjoy building backend systems and solving technical problems. During my studies and training, I worked on projects that helped me improve my coding and problem solving skills. I am also learning more about software development and modern backend tools. I am looking for an internship where I can improve my skills, work with experienced developers, and gain real work experience. My goal is to become a strong backend developer.

6. Why Should We Choose You?

You should choose me because I am a motivated student who is willing to learn and improve. I have a good foundation in backend development and I have worked with Python, FastAPI, REST APIs, databases, and Git. I can learn new tools quickly and I enjoy solving problems. I also understand that working in a team requires good communication and responsibility. I may not have a lot of professional experience yet, but I am ready to work hard, learn from the team, and take feedback seriously. I believe this internship will allow me to grow and also contribute to the team.
